

## Contents / Matières

Abstracts / Résumés.....	2
Biological and cultural diversity: The double helix of sustainable development .....	2
Finding the science in tradition .....	3
Medicinal biodiversity and conservation in Canada's boreal forest .....	4
Conservation of medicinal plants in Central America and the Caribbean .....	4
Conservation and use of Embera medicinal plants and associated traditional knowledge in Panama .....	6
Community use and conservation of forest resources in Indonesia .....	7
Canadian medicinal plant biodiversity priority issues .....	7
Phytomedicines from the southern cone of South America .....	9
Bioactive natural products in Mexican phytomedicines .....	10
Pharmacognosy research in Panama .....	10
Anti-viral activities in tropical plants: Limitations of existing bioassays and new research developments .....	11
Commercial phytomedicines in Africa .....	11
International trade and the synchrasmy of indigenous and modern pharmacognosy .....	12
Développement d'une industrie de phytomédicaments en Afrique : atouts et difficultés..	12
Traditional medicine program in Madagascar .....	13
Research and commercialization of medicinal plants - Discussion .....	14
Fostering research in medicinal plants .....	14
Traditional medicines and Intellectual Property Rights .....	15
Use of traditional knowledge of Aboriginal Peoples for university research: Conflicts between research ethics and Intellectual Property ownership policies .....	15
The Convention on Biological Diversity as an Instrument for health and well-being .....	16
Canadian natural health products regulations .....	16
Program / Programme .....	2 / 3

Rau om / rau om  
*Limnophila aromatica*

### Steering Committee:

*John Thor Arnason, Ph.D.*  
 Medicinal Plants  
 University of Ottawa  
*Valerie Assinewe, Ph.D.*  
 Traditional Medicine  
 Consilium  
*Paul Catling, Ph.D.*  
 Botany & Medicinal Plants  
 Agriculture and Agri-Food Canada  
*Peter Croal*  
 Canadian International Development  
 Agency (CIDA)  
*P.T. Dang, Ph.D. (Committee Chair)*  
 Biodiversity  
 Tropical Conservancy  
*Brian Davy, Ph.D.*  
 Sustainable Use of Biodiversity  
 International Development  
 Research Centre (IDRC)  
*Roberta Stout*  
 National Aboriginal Health Organization  
 (NAHO)  
*Tamara Dionne Stout*  
 Indigenous Peoples' Secretariat  
 (Canada) on the Convention  
 on Biological Diversity  
*Nina Edson, M.Sc. (Program Coordinator)*  
 Tropical Conservancy.  
*John Lambert, Ph.D.*  
 Medical Plant Specialist  
 World Bank  
*Danna Leaman, Ph.D.*  
 The World Conservation Union  
*Carole Lemay*  
 Biodiversity Convention Office  
 Environment Canada  
*G.G.E. Scudder, D. Phil.*  
 (Biodiversity Editor)  
 Zoology, University of British Columbia  
*Susan Murch, Ph.D.*  
 Medicinal Plants  
 Institute for Ethnobotany, Hawaii  
*Ed Napke, MD., DPH,*  
 Physicians and Scientists  
 for a Healthier World  
*Keith Wilde, Ph.D. (Secretary)*  
 Natural Resources Economist

### Advisory Board:

*Steve Curtis*  
 Program Director, NatureServe  
*Peter Hall*  
 Executive Director  
 Biodiversity Knowledge and Innovation  
 Network Institute  
 Agriculture and Agri-Food Canada  
*John Herity*  
 Director  
 Biodiversity Convention Office,  
 Environment Canada.  
*Robert McFetridge*  
 Indigenous Issues, Biodiversity Convention  
 Office, Environment Canada  
*Maurice Strong*  
 Under-Secretary-General  
 United Nations  
*Philip Waddington*  
 Director-General  
 Natural Health Products Directorate  
 Health Canada
